

OXYGEN GENERATOR WITH AIR CLEANER

FEATURES

■ HIGH CONCENTRATION OXYGEN GENERATOR

This unit can change from normal air (concentration of oxygen: about 21%) to flesh air (including high concentration of oxygen: about 30%) by oxygen enrichment membrane.

- ※ Oxygen molecule dissolves in oxygen enrichment membrane faster than nitrogen molecule.
- ※ This unit is operative as oxygen charger by oxygen generation Mode.

■ FOUR (4) LAYER FILTERS

1. HEPA (High Efficiency Particulate Air) filter
Dust collection rate: 99.97%
2. Enzyme sterilization filter
Enzyme that is included in filter kills virus.
3. Activated carbon deodorizing filter
Deodorizing efficiency: Approx. 90%
4. Mildew proof pre-filter
Eliminate dust.

They collect odor, dust, dust mites, pollen, smoke spores and most bacteria.

■ GENERATES MINUS ION

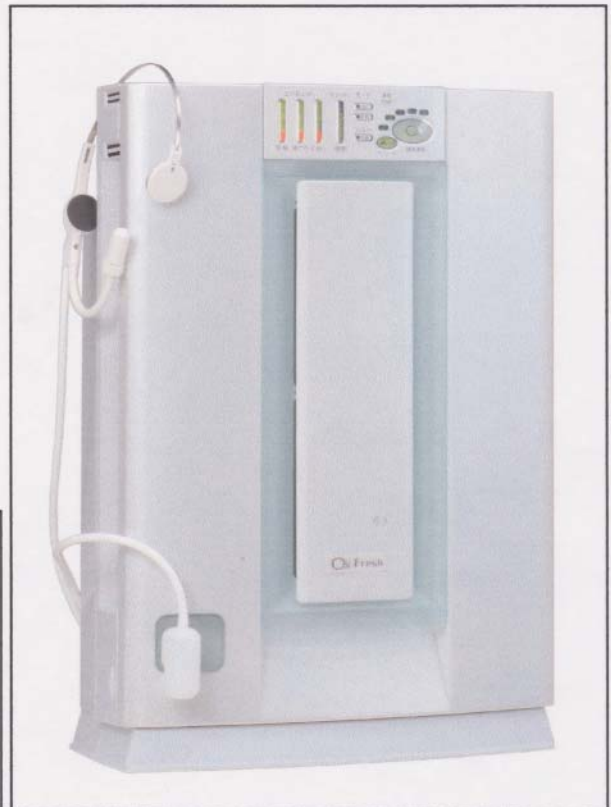

Generates about 30,000 – 50,000 pcs. / cc of Minus Ion

■ ODOR AND DUST SENSORS

Control operation mode and air flow automatically

■ WIRELESS REMOTE CONTROL

■ AUTO-OFF TIMER (1-2-4 hrs)

SPECIFICATIONS

MODEL:	ETK-S50DX
POWER SOURCE:	AC120V, 60Hz
AIR FLOW RATE ADJUSTMENT:	Quick / High / Standard / Low Oxygen generation mode
CONSUMPTION POWER:	Quick: 85(W) / High: 49(W) / Standard: 32(W) / Low: 18(W) / Oxygen generation mode: 53(W)
AIR FLOW RATE:	Quick: 177CFM / High: 106CFM Standard: 71CFM / Low: 71CFM Oxygen generation mode: 35CFM
APPLICABLE FLOOR SPACE:	409FT ²
CORD LENGTH:	6.5ft.
EXTERIOR DIMENSIONS (WxDxH):	15-3/4 x 8-5/16 x 23-1/3in.
PRODUCT WIGHT:	22lbs.
REPLACEMENT FILTER:	HEPA Filter (ETF-50H) Activated carbon deodorizing filter (ETF-50D)
